Professional Summary

Aspiring Full Stack Web Developer skilled in designing and developing responsive web applications using HTML, CSS, JavaScript, React, and Node.js. Proven experience in creating projects like a Medical Appointment Booking System and Employee Management System. Passionate about building user-friendly interfaces and efficient back-end systems. Eager to contribute to innovative development teams and grow in a dynamic tech environment.

Technical Skills

Programming Languages: JavaScript, HTML, CSS
Frameworks and Libraries: React, Node.js
Databases: SQL, DBMS
Tools: Git, GitHub
Other Skills: Responsive Web Design, Dynamic UI Development, Debugging

Projects

Project Title 1 | Medical Appointment Booking System

- Used HTML, CSS, and JavaScript to build a responsive front-end interface for appointments.
- Implemented form validation and dynamic UI updates using JavaScript.
- Deployed application on a netlify and managed version control with GitHub.

Project Title 2 | Personal Finance Tracker

- Developed an interactive web application to manage and track personal finances using HTML, CSS and JavaScript.
- Implemented features for users to log and categorize income, expenses, and savings with real-time display of financial totals.
- Built a responsive user interface with a toggle for light and dark modes, enhancing user experience and accessibility.
- Utilized JavaScript for dynamic updates, form handling, and transaction filtering to provide seamless user interactions.
- Added a **Download Transactions** functionality, allowing users to export their financial data in a structured format for offline access and record-keeping.

Project Title 3 | React Portfolio Website

- Designed and developed a responsive portfolio website showcasing personal projects and skills.
- Utilized **React Router** for seamless navigation across multiple pages, providing a smooth user experience.
- Built a modern, visually appealing interface using custom CSS styles and interactive elements with JavaScript.
- Optimized for mobile and desktop devices with responsive design principles.

Project Title 4 | Employee Management System

- Designed and built an Employee Management System site to showcase my projects and technical skills.
- Used HTML, CSS, JavaScript to create a modern, user-friendly interface.
- This project provides a backend system for efficient employee data management using Node JS and My SQL.

Education

Hindustan College of Arts and Science, Chennai - Bachelor of Commerce (Computer Applications) **85%** (2021-2024)

AL-AMEEN Matric. Hr. Sec. School, Kumbakonam – XII **83%** (2020-2021)

Christ The King Matric. Hr. Sec. School, Kumbakonam – X **80%** (2018-2019)

Internship Experience

Full-Stack Web Development Intern
Prime Solutions, Coimbatore | *Oct 2024 – Dec 2024*

- Contributed to both front-end and back-end development of web applications using technologies like **HTML, CSS, JavaScript, React, Node.js, Express,** and **MongoDB**.
- Assisted in building responsive and user-friendly interfaces with **React.js**, ensuring cross-browser compatibility.
- Developed and integrated RESTful APIs using **Node.js** and **Express** to connect the front-end with the back-end.
  - Worked on real-world projects such as:
  - **Portfolio Website**: Designed and developed a responsive portfolio website showcasing personal projects and skills. Utilized **React Router** for seamless navigation across multiple pages

- o **Employee Management System**: Created a full-featured CRUD application integrating front-end React components with a Node.js backend and SQL database.

- o **Medical Appointment Booking System**: Developed a system to book and manage appointments, enhancing user interaction and form validation.

- o **Personal Finance Tracker:** Developed an interactive web application to manage and track personal finances using HTML, CSS and JavaScript.

- Improved problem-solving, debugging, and communication skills through regular code reviews and team meetings.
